REGULATION

### **Requesting the Use of Facilities on Sundays--Guidelines**

It is the desire of the Peters Township School District to respect the Township's policy to limit use of township facilities to noon and after on Sundays. As such, requests to use School District facilities from noon through 10:00 pm on Sundays will be accepted through the application process outlined in Policy 1330.

Requests to use School District facilities before noon on Sundays will be reviewed on a case-by-case basis by the Superintendent, after having gone through the general application process to ensure availability and compliance with insurance and cost requirements. Use of School District facilities on Sundays before noon will be the exception, not the rule. Any request for the use of School District facilities before noon on Sundays for a function, program, event, service, game, match, or fundraiser that could be scheduled on another day or on Sunday at noon or after will be denied.

Those rare events that necessitate the use of School District facilities before noon on Sundays will have limited privileges prior to noon, such as no outside use of the PA System.

Groups or organizations requesting exceptions to the noon or after rule on Sundays should submit their requests at least one week prior to the required timeline to allow for investigation and decision-making. The Board of School Directors will be informed of any exceptions to the noon or after rule on Sundays prior to the approval being given by the Superintendent.
