

Peters Township School District

Policy: 1340

Title: Access to School Procedures, Materials, and Facilities

Adopted: 3/2/70

Revised: 2/19/73

1 No use of school buildings or district procedures, materials, or facilities not
2 related directly to the School district's program of instruction or extra-curricular activities
3 shall be permitted except as provided in School Board policies or, where no specific
4 policy covers the exigencies of the situation, by authorization of the Superintendent. This
5 prohibition shall be construed to include use of buildings, public address systems, bulletin
6 boards, internal mail distribution facilities, duplicating equipment, paper, etc.

7
8 This policy shall not operate to prevent continuation of normal cooperative
9 relationships with Parent-Teacher Associations, nor shall it prevent use of schoolrooms
10 for private or group instruction after school hours by PTA sponsored instructors or by
11 school personnel. Such instruction by school personnel shall be restricted to hours after
12 the employee's daily obligation to the district has ended and to teaching which involves
13 no ethical conflict on the part of the employee, and shall be subject to the approval of the
14 Superintendent.

15
16 Where the provisions of this policy and the terms of any agreement or contract in
17 force between any duly certified employee union or association and the School district
18 are in conflict, the latter shall prevail. However, this policy shall not provide expanded or
19 greater benefits than provided in any agreement or contract in force for covered
20 employees, nor shall this policy be employed to change, modify, or expand provisions
21 included in applicable agreements or contracts.
