# Submarines

An admiral in the navy has given the location of six submarines somewhere in the Atlantic Ocean by indicating each submarine's coordinates on a grid. In the exercises below, tell whether the admiral's coordinates are correct. If they are not correct, give the correct coordinates.

1. The admiral says there is a submarine at (0, 6).

\_\_\_\_\_

2. The admiral says there is a submarine at (9, 7).

\_\_\_\_\_

3. The admiral says there is a submarine at (10, 4).

\_\_\_\_\_

4. The admiral says there is a submarine 4 units directly above (5, 1).

\_\_\_\_\_

5. The admiral says there is a submarine 3 units to the right of (7, 6).

\_\_\_\_\_

6. The admiral says there is a submarine 2 units to the left of (6, 5).
