In art class, Ross made a card for Mark.
“Mark will say that this card is very good,” said Mrs. Sanchez.
“Mark will like your card!” said Dad.
“Let’s put it here. Then he will see it as he comes into the house.”
There was a loud honk.
“I know who that is!” said Dad. “Mark is here!”
Ross looked out to see Mark’s car.
“Oh, no!” said Ross. “Mark’s car is not black!”
“I made a card for you, Mark,” said Ross.
“Now I see your car is red, not black. I feel bad. I’ll make the card again.”

Have you ever been to a desert? It hardly ever rains there. A desert can be a very hot place. Even so, many animals and their babies live there.

**Desert Tortoise Babies**

Desert tortoise babies hatch out of eggs. The mother lays only one or two eggs at a time. She does not touch her eggs again.

An interesting thing happens to the eggs. In warm sand, they hatch into female tortoises. In cool sand, they hatch into male tortoises. After hatching, the babies go under the sand to stay cool.

**Bighorn Sheep Babies**

When a bighorn sheep baby is born, it stays with its mother for a few weeks. The mother takes care of the baby. She protects it from other animals.

Soon the baby will group together with other bighorn sheep babies.
